APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 17248 is issued subject to the terms and conditions imposed in said Permit 17248 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a weir or other type of measuring device at or near the well to facilitate the measurement and control of the water. If well is flowing, a valve must be installed and maintained to prevent waste. The State reserves the right to regulate the use of the water under this proposed change at any and all times. This permit corrects the duty of water previously allowed under Certificate 5812 from 933.72 acre feet per season to 910.20 acre-feet per season.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 cubic feet per second, but not to exceed a duty of 4.0 acre feet per acre of land irrigated seasonally from any and all sources, and further limited to 910.20 acre feet per season under this permit
